ARTIST STATEMENT

My artistic work explores expressionism through abstract compositions that reflect introspection, pain, and uncertainty.

I use diverse materials and experimental techniques to translate the complexity of the invisible into a visual language.

Each piece is a synthesis between electrifying intensity and plastic research, resulting in unique and authentic creations.

ARTISTIC EDUCATION

Interest in painting and drawing since childhood.

Continuous and experimental training with various materials (acrylic, plaster, aluminum, paper, among others).

Personal exploration of expressionism and abstract art.
